Total makeover

From a tired old corner to a slick modern lifestyle zone, Glenore Centre in Glenashley has undergone a dramatic makeover. Built in the 1960s by grandfather Jason, and still owned by Jason Property Group, its recent renovation has enabled the precinct to double its space to 3 000m³ and become a vibrant and exciting shopping and dining experience. The brief given to architect Andrea van Dam of Archi Angels Architects was to create something 'out of the ordinary', which she has achieved in her use of space, light, air and mosaic detail. The centre offers spectacular sea views from the decks on the upper level, and customers are flocking to enjoy the dining and lifestyle experiences on offer, including Yum Thai Bangkok Wok, Andrea's Dolce Vita, Haveli Fine Indian Cuisine, Jimmy's Killer Prawns, Fego Café, Palermo Décor and Design, a Kwikspar and a Tops bottle store.
